

ELECTRICAL TRAINING COURSES

Basic Plumbing Repairs (One Day Course)

Delivered at your location anywhere throughout the UK

The Basic Plumbing Repairs training course is ideal for any person that has the responsibility for building maintenance such as caretakers and on site maintenance personnel.

Typical Participants: Any person who would benefit from an increased ability and confidence to carry out simple plumbing repairs removing the need to call out a plumber.

General Information: This course will be customised to your requirements and will relate to the type of activities that people need to carry out. The course attendees will be assessed upon completion of the course so that you can be assured that they have learnt. The course will be certificated as 'Successful Completion' and will therefore be invaluable for an assessment of competence.

Typical Content:

- Basic Plumbing Overview
- Replacing taps and tap washers
- Replacing WC Syphon and WC Filler
- Replacing ball cock valves
- Repairing Radiator Leaks
- Unblocking toilets, drains, toilets and urinals
- Repairing leaks
- Water Regulations

Course costs are dependent on your location and the number of attendees.

Tinson Training delivers courses to a wide selection of UK businesses, delivered on site and customised to ensure that it meets the exact needs of the attendees.
