

## ELECTRICAL TRAINING COURSES

### Small Electrical Works

*Delivered at your location anywhere throughout the UK.*

**Typical Participants:** This course is ideal for any person who has attended our Electrical Safety Awareness or Electrical Site Maintenance Training Course. The attendees on this course would need some basic understanding or some experience of Electrical Work.

**General Information:** The outcome of this course is to provide staff with the technical expertise and know how to execute and officially sign off small electrical jobs such as adaptations or extensions to existing circuits.

**Typical Content:**

- Basic Electrical Units
- Legislation, Regulations and Guidelines
- Electrical supplies, Cables and Earthing Systems
- Protective Devices
- Use of Instruments
- Voltage drops and cable zones
- Lighting Circuits
- Fault Finding Techniques
- Practical Activities (removing/adding sockets etc)

**Duration:** Three Days

Course costs and are dependent on your location and number of attendees.

*Tinson Training delivers courses to a wide selection of UK businesses, delivered on site and customised to ensure that it meets the exact needs of the attendees.*
