

CAROLE AVESON

Carole is the organisational core of Tinson Training, essential when everyone else is out doing what they do. As Administration Manager, all client inquiries cross her desk first. She will then work with clients to ensure that the appropriate course type and content are provided, scheduled and trainer lined up.

Carole started her own freelance Virtual Administrative Management business in Telford in 2019. While Carole is a relatively recent arrival in Telford, she has built up a strong background in office and operations management across a variety of sectors while based previously in Hampshire.

We are pleased to welcome Carole as the newest member of the Tinson Training Team
